

**JOURNAL**  
**OFFICE OF LEGISLATIVE COUNSEL**

**Tuesday - 18 February 1964**

1. (Internal Use Only - JSW) Representative Clarence Cannon called in connection with a possible hearing of the CIA Subcommittee of House Appropriations with the Director. Mr. Cannon stated that the DOD representatives had been before the Committee and their testimony had been consuming more time than anticipated; therefore, a meeting with the Director probably would have to wait until the Defense witnesses have concluded. However, Mr. Cannon very carefully stated that if there were any emergency which the Director felt warranted the Subcommittee's attention, he would postpone the scheduled hearings to work in the Agency. I advised Mr. Cannon that there was no such emergency, that it was a question of the Director's desire to cooperate with the Subcommittee and to keep them fully and currently informed. Mr. Cannon said that was fine and he would be in touch with the Agency when the hearings are completed. Mr. Elder was notified of this immediately.

2. (Unclassified - JSW) Advised Mr. Edward Braswell, Senate Armed Services Committee staff, that the appointment which he had arranged through us for one [redacted] with the Inspector General had not been kept by [redacted] Mr. Braswell had no interest in the matter saying this was [redacted] problem but appreciated being informed.

3. (Internal Use Only - JSW) Mr. Elder advised that the Director had telephoned Senator Dodd in connection with the floor speech of yesterday. Apparently the Director indicated he would send to Dodd an analysis of the McCarthy article in the SATURDAY EVENING POST. I advised Elder that the Task Force is in the process of preparing this and it should be ready very soon.

4. (Internal Use Only - JGO) Delivered to Senator Stuart Symington (D., Mo.) the revised notes prepared by Mr. Warner.
